

# Nature Cat's Recycling Challenge

It is important for everyone to do his or her part to keep the world we live in beautiful. In this activity, children have the chance to do their part and develop important early math skills by sorting recyclable materials into their correct bins.

## What you'll need:

- 3 bins (labeled Paper, Cans, and Plastic)
- Materials to sort from the three categories: cans, soda bottles, water bottles, newspaper, magazines, loose leaf paper, etc...
- Scissors
- Crayons, colored pencils and/or paint

## The Activity:

- Explain the three different bins to the group
- Paper, Cans, and Plastic
- Tell each child to pick out five items from the pile and put them in the correct bin
- After they have recycled the materials, award each child with a 'Recycling Expert' badge
- Have the children color the badges
