Splash and Bubbles are exploring down in the deep.

It's dark! How do fish see in the deep?

PBS KIDS

Jim Henson's **SPLASH AND BUBBLES**
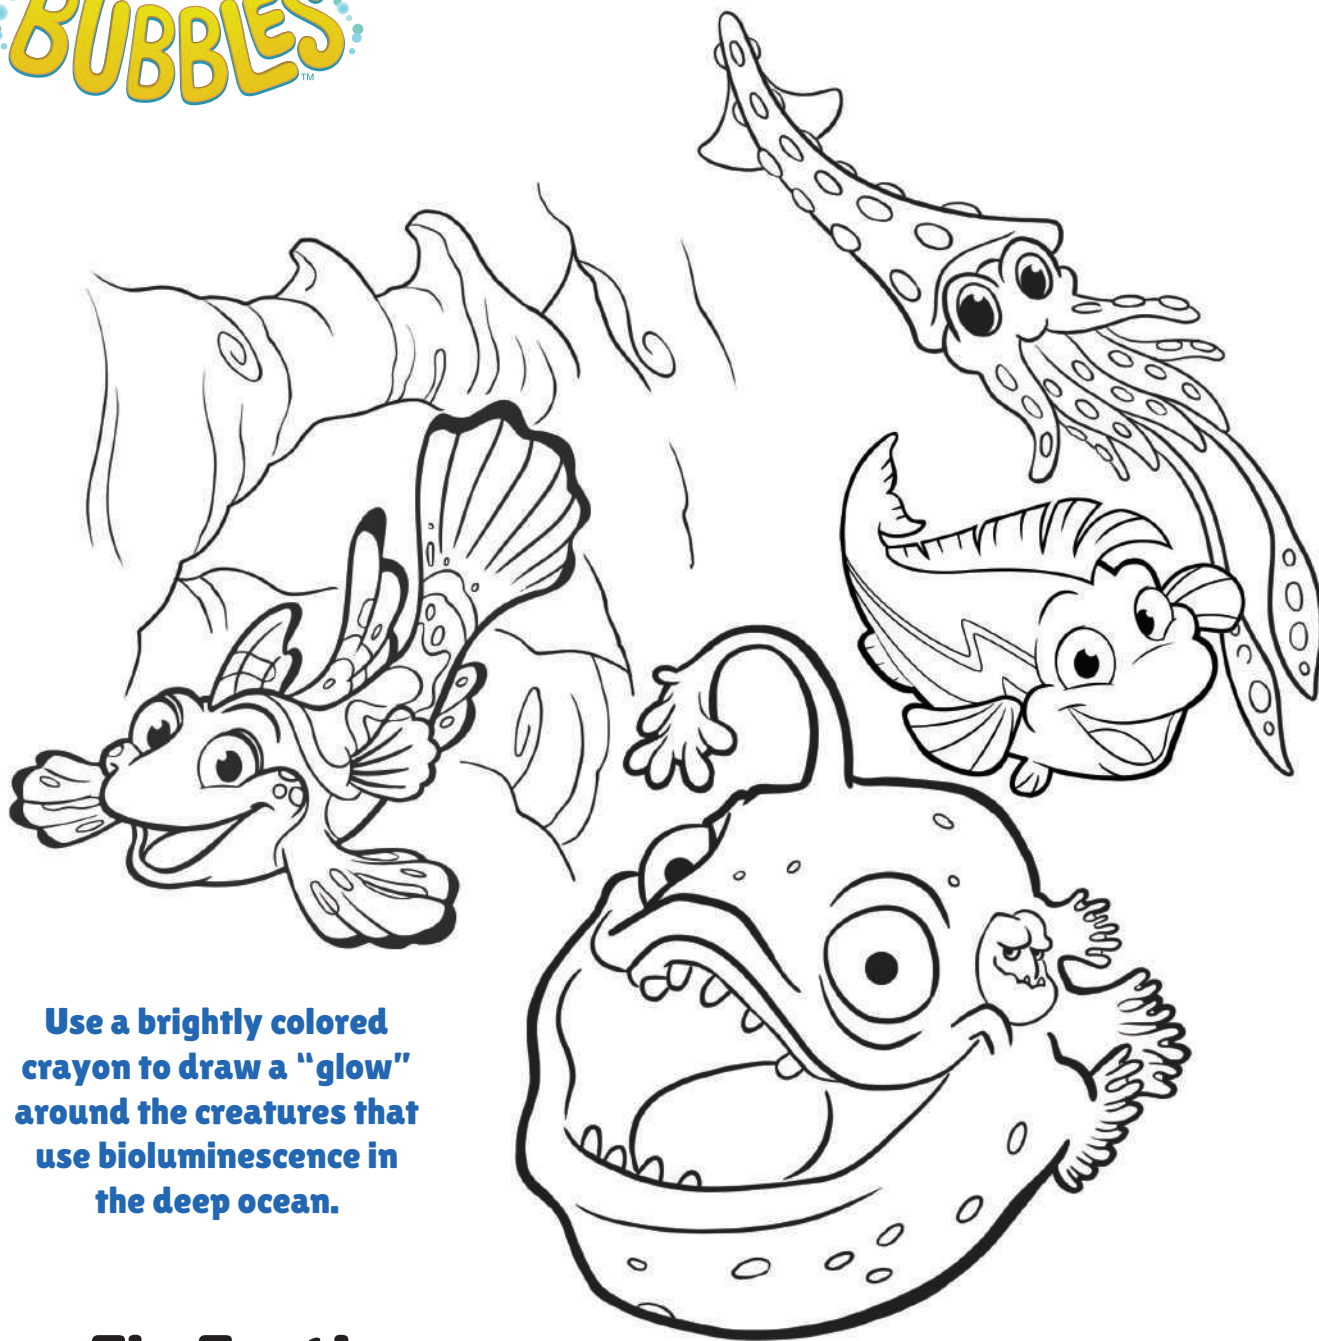

Use a brightly colored crayon to draw a "glow" around the creatures that use bioluminescence in the deep ocean.

Fin Fact!
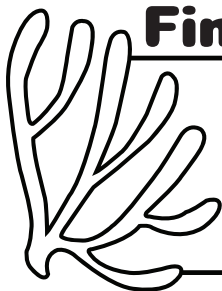

Bioluminescence is caused by a bacteria that sustains a symbiotic relationship with its respective sea creature. These animals use bioluminescence to attract or confuse prey and provide light.
