

# Let's Be Curious!

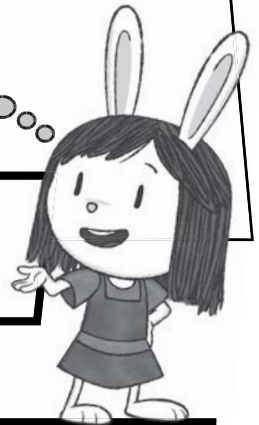

(name)

What is it like outside at night?

## Let's Plan!

What will you do to investigate? What tools and materials will you use? What senses will you use to observe?

I wonder...

## Let's Explore!

Record what you observe and discover:

I noticed...

## Let's Share!

Talk about what you noticed. What is different at night than during the day? What surprised you?
